

# Romance

*Fragrance of Provence, where effusions of lavender, orange blossom and olive trees mingle to inebriate you in a joyful summer dance. Let your senses awake to the singing of cicadas, let yourself be carried away by the romance of this collection.*

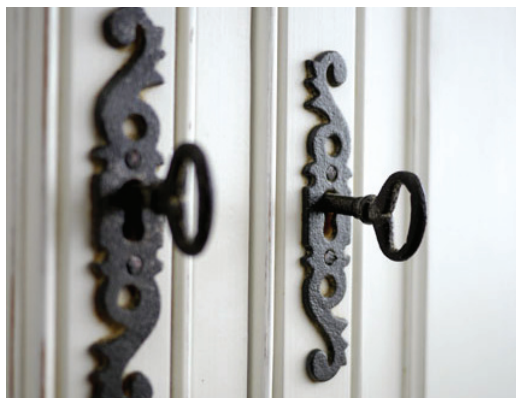

# Romance

## Structure

*The structure is made of medium density fiberboard (MDF), E1 quality.*

*This material is perfectly suited to ensure a long lasting quality of the painting. MDF is a stable and sturdy material which can be worked like solid wood. This material which can be more expensive than some wood species, gives the furniture a high level of resistance to scratches and shocks, partly thanks to its density.*

*\* Legs and main parts are made of spruce.*

## Robustness

*MDF is a stable and solid material that is worked in the same fashion as solid wood. This material, much more dense than some species of wood, gives our furniture a very high resistance to scratches and shocks.*

## Finish

*The furniture has several successive layers of acrylic paint, sanded and aged by hand. For better protection, a veil of cellulose varnish is also added.*

## Easy care

*Protected by a veil of varnish, the surfaces are easily cleaned with soapy water. They are waterproof.*
